Alan: I was thinking of facilities that were not landfills. Here is what I asked LDEQ for on landfills:

Lat & Long for the facility

Design (type of liner system , leachate collection system, groundwater monitoring, etc.)

Date of permit

Capacity (could use your 2009 report, unless more up to date info is available).

Enforcement history (enforcement actions in the last 3 years, date and results of last inspection, etc.)

Community issues ( any ongoing complaints or legal action )

---

This is what I am going to ask for:

Landfill (permit) type

Do they have a liner?

- If yes, what kind?

Do they have a leachate collection system?

- If yes, where is the leachate going?

What is their current remaining capacity?

Is the information presented in the Appendix A table correct?

Please perform a compliance screen for the past three years? (waste, water, air as applicable)

Have there been any complaints about odor, or other items that may not appear in a compliance screen?

Thanks!

Subject: facility compliance history

I plan to request that our enforcement division do a compliance screen, going back 3 years, and ask the state to do the same
